

Dear student!

The Office of Academic Affairs of the University of Tartu is offering a chance to gain credit points through internship experience. The participants of the project will get a chance to help with organizing a web-based programme for students in self-isolation. The programme consists of various seminars, presentations, movie nights, games, social events, etc.

All students interested in preparing different ZOOM events, managing socialmedia events, acting as technical support and solving various technical challenges during these events are welcome to join.

Out of all the applicants 1 student will be picked for the internship.

To apply for the internship students are asked to contact Programme Director for International Summer University Mari Mäesaar (mari.maesaar@ut.ee) by 18th of September at the latest. If you have any further questions, please don't hesitate to ask!
