

Questions to solve the initial situation of the Hasty Defense scenario

Here is what you have to do next:

In the box below, please write all the problems you found in this situation (number them and if possible, please use a different row for each problem).

Now think about the company's mission, your PLT's main task and the latest information you saw, heard or read in the paper. Then decide how well the tactical solutions offered below will work in this situation. You can only use each number once, which means that you need to match each tactical solution to a number.

The scale is: 1 (very poor), 2 (poor), 3 (rather poor), 4 (rather good), 5 (good) or 6 (very good).

_____ I command VP1 to leave the position. Then I give information about the latest ENY activities to all my call signs. Then I write down the coordinates of the HPT location. Then I task the FCT to order IDF fires from S50 IOT influence the HPT. Once VP1 is back, I give an order to all of my call signs to leave current positions and move at least 200 meters southward of the river and occupy new hasty defense positions there IOT continue with their tasks. (k11)

_____ I command A14 to take 2 men from each squad to the RES area IOT deal with potential WIA-s when battle starts. Then I command VP1 to leave the position. Then I write down the coordinates and the type of ENY HPT and move to the location of A90 (approximately 500 m from my current position) IOT forward the coordinates of HPT to him. (k12)

_____ I detect the location of the HPT and forward it to the A90. Then I command VP1 to leave the position. Then I command A14 to take 5 men from A11 IOT bring goods and class 5; also, I command him to be ready to deal with WIA-s. Then I inform all my call signs about the latest ENY activities. (k13)

_____ I write down the coordinates of the ENY HPT and send them to the A90 ASAP after the contact. Then I command A14 to be prepared to deal with the WIA-s and take 4 soldiers from A12 and A13 IOT to bring goods and class 5. Then I command VP1 to move about 100m southwest and occupy a new OP there IOT identify ENY avenues of approach. Then I give information about COY size ENY approaching HEESKA to all my call signs. (k14)

_____ I inform A90 about ENY HPT and forward him the coordinates. Then I give VP1 an order to stay in position. Then I command FCT to be prepared to call S50 fire IOT influence HPT. Then I inform all my call signs about COY size ENY approaching HEESKA; also, I remind them to inform me immediately about any ENY HPT they identify. Then I command A14 to be prepared to deal with WIA-s and take 2 soldiers from A12 and two soldiers from A13 IOT to bring goods and class 5. (k15)

_____ I command VP1 to stay in position and pass on reports about ANY activities, especially if ENY initiates activities that could endanger the left wing of PLT. Then I command A14 to be prepared to receive WIA-s in RES area and arrange MEDEVAK. Then I will find out the exact information of ENY HPT and forward this to A90. Then I command FCT to call fire from S50 IOT influence ENY HPT. Then I give information about the latest ENY activities to all my call signs. (k16)
