

## Questions to solve the continuous situation of the Hasty Defense scenario

### Here is what you have to do next:

In the box below, please write all the problems you found in this situation (number them and if possible, please use a different row for each problem).

Now think about the company's mission, your PLT's main task and the latest information you saw, heard or read in the paper. Then decide how well the tactical solutions offered below will work in this situation. You can only use each number once, which means that you need to match each tactical solution to a number.

The scale is: 1 (very poor), 2 (poor), 3 (rather poor), 4 (rather good), 5 (good) or 6 (very good).

\_\_\_\_\_ I send CONTACTREP to A90 and give information that ENY has crossed EDGAR. Then I will forward FCT the coordinates of HPT and command them to call S50 fire IOT influence HPT. I give A11 an order to SUPPORT BY FIRE from its positions IOT SUPPRESS ENY in the forest line behind HEESKA crossroad. Then I command A12 to ATTACK ENY along the road towards HEESKA IOT DESTROY ENY in the opening in front of HEESKA crossroad. Then I command A14 to arrange MEDEVAK IOT deal with WIA-s. As A13 positions are partially destroyed, I will command them to move approximately 100m south and OCCUPY new positions there IOT continue with the task. (k21)

\_\_\_\_\_ I write down the coordinates of ENY engineer HPT forward them to A90 as soon as I meet him. I command A14 to take 2 soldiers from each squad IOT bring goods and class 5. Then I move to A13 positions IOT get a better overview of the situation there. Then I give the PLT inner IDF priority to A11 Solution text 2. (k22)

\_\_\_\_\_ I command A13 to arrange MEDEVAK for its WIA. Then I command all my call signs to return fire towards ENY. Then I inform A90 that ENY has crossed EDGAR. Then I move to A13 positions IOT get a better overview of the situation there. (k23)

\_\_\_\_\_ I command FCT to call IDF fires on ENY IOT influence it. Then I write down the coordinates of ENY engineer HPT and forward them to A90 after the contact ASAP. I order A11 to occupy positions towards north IOT prevent ENY breakthrough. I order A14 to arrange MEDEVAK for A13 WIA. (k24)

\_\_\_\_\_ I make CONTACTREP to A90. Then I ask A11 an update about ENY activity on PLT's left wing. Then I command A14 to arrange MEDEVAK for A13 WIA and to be prepared to deal with potential future WIA-s. Then I forward A90 information about ENY crossing EDGAR. Then I command A11 to occupy positions towards the north IOT to prevent ENY breakthrough. (k25)

\_\_\_\_\_ I make CONTACTREP to the A90; in addition, I pass the information about HPT location and confirm that ENY has crossed EDGAR. I command FCT to influence HPT with IDF assets of S50. I give VP1 permission to leave the position and join with the unit when the situation becomes too dangerous for them; I will add that they have to inform me if they do so. I command A11 to occupy positions towards north IOT prevent ENY breakthrough. I command A14 to halt bringing goods and class 5 until my further orders, I will add that his first priority now is to organize MEDEVAC for WIA-s. (k26)
