

MOBILE TARTU

International Virtual Conference

30th of June 2020

Online 10:00-17:10 (EEST)

7th biennial Mobile Tartu conference invites scholars engaged with research on human spatio-temporal behaviour and mobility data from a variety of academic disciplines. The conference addresses theoretical, empirical and methodological research in human mobility using spatial Big Data.

Keynote speakers:

- Prof. Georg Gartner (Vienna University of Technology)
- Prof. Haosheng Huang (Ghent University)
- Prof. Rob Kitchin (Maynooth University)
- Prof. Esteban Moro (Carlos III University of Madrid)
