

20th IEEE International Conference on Advanced Learning Technologies

(ICALT 2019)

July 6-9, 2020

Tartu, Estonia (Online)

Conference Presentation

The 20th IEEE International Conference on Advanced Learning Technologies (ICALT 2020) is organized by the Institute of Education, University of Tartu, Tartu, Estonia. The Institute of Education is focusing on educational research in a wide area from teacher education to educational technologies. The Institute has been actively involved in several international networks and professional associations. The Institute of Education also offers an international PhD programme on education and international master's programme on Educational Technology.

Hosted:

Online

Organized by:

Institute of Education, University of Tartu

Venue Map:

See the last page for **the virtual lobby room.**

Keynotes:

“Helping Young Learners Develop Inquiry and Critical Thinking Skills”

Kaushal Kumar Bhagat

Centre for Educational Technology, Indian Institute of Technology Kharagpur

Mike Spector

Learning Technologies Department, College of Information, The University of North Texas

“Learning Analytics: State of Adoption and Evidence of Effectiveness”

Dirk Ifenthaler

Chair of Learning, Design and Technology, University of Mannheim

“Empowering Communities of the World to Contribute into Improving Digital Learning”

Märt Aro

Co-Founder, DreamApply

Presentation Guidelines

- All presentation date/time is in GMT. Please refer to <https://time.is/GMT> for finding the time difference that your local time may have from the GMT.
- Presentation time for full papers will be 20 minutes plus 5 minutes for questions.
- Presentation time for short papers will be 15 minutes plus 5 minutes for questions.
- Discussion session will have two stages. In the first stage, each discussion paper’s presenter will have 3-minute to give all participants a brief and clear idea of their research. Presenters can use up to three slides for the 3-minute presentation. After that, each discussion paper will have its own “virtual” room so participants can visit and discuss with its authors in more details.
- All presenters should get familiar with how to use Zoom for their presentation. More instructions can be seen at <https://sisu.ut.ee/icalt2020/zoom-instructions-presenters>.
- All of the presentations (except Doctoral Consortium and individual sessions for discussion papers) will be recorded and made available for the registered participants.

NOTE: The IEEE copyright covers presentations.

The virtual lobby room

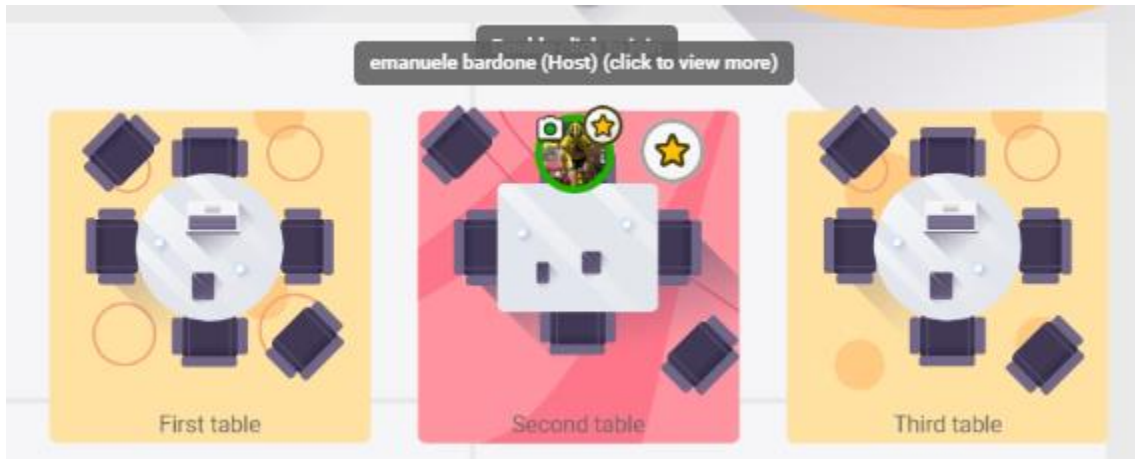

During the whole duration of the sessions, all participants will have the chance to meet with one another in the so-called “virtual lobby room”. The lobby room is a virtual space powered by a video-conference tool called Remo. For a short video-demo, check this: <https://youtu.be/AvfjiukhgnE>

The lobby room will be reachable by simply clicking on the links that will be provided by the organizers.

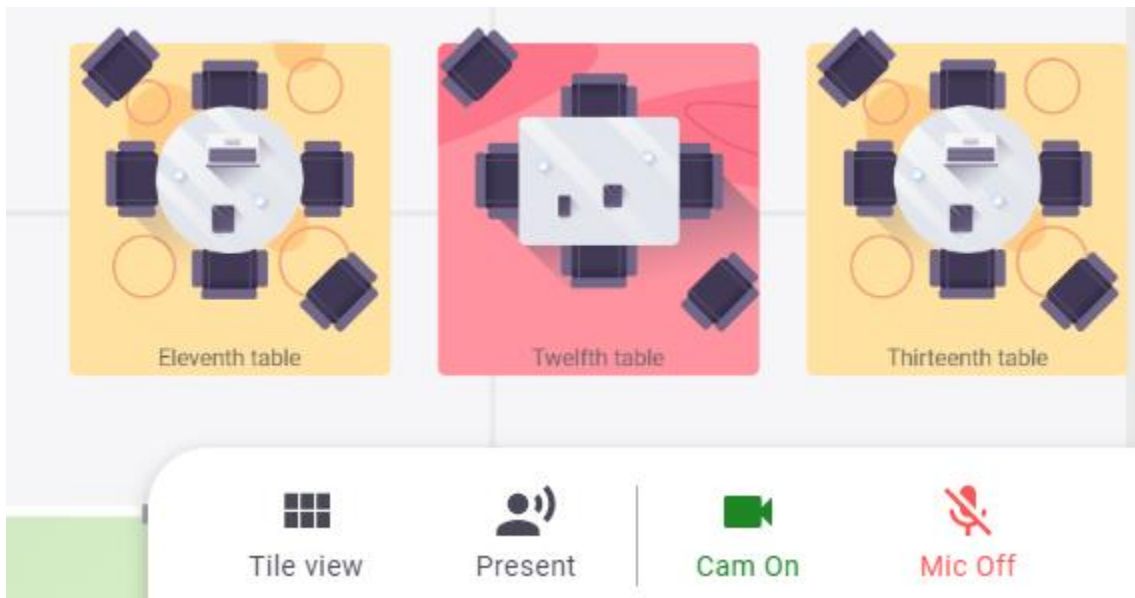

Once you are in the virtual lobby room, you will be automatically assigned to one of the tables, which functions like “breakout rooms”. You will then be able to video-chat only with those who are “sitting” on the same table. Each table will allow for a maximum of 6 people.

Once you are in the lobby, you can switch from one table to the other. Other participants' names will be shown, when with your mouse you will go over one the bubbles, as shown in the picture.

By clicking on “Tile view”, you will be able to switch to alternative views.

While being on one of the tables in the virtual lobby room, you can share your screen or use the whiteboard at your convenience.
