

Ark of Inquiry

What?

- 12 European partners, joined by UNESCO, are working to release the secrets of the Ark of Inquiry across Europe
- more than 100 inquiry learning activities will be available through the Ark of Inquiry platform

For whom?

- at least 23 000 students
- at least 1 100 teachers
- more than 100 science centres

When?

- March 2014 – February 2018

Why?

• Ark of Inquiry aims to raise youth awareness to Responsible Research and Innovation by providing young European citizens with a pool of engaging inquiry activities to improve their inquiry skills, increase their awareness and understanding of conducting 'real' science, and prepare them to participate in different roles in the European research and innovation process.

- This project has received funding from the European Union's Seventh Framework Programme for research, technological development and demonstration under grant agreement no 612252.
